- Dinamički kreiran navigacioni meni pomoću JavaScript-a. Funkcionalnost se nalazi na svim stranicama.
- Dinamički kreiran navigacioni meni za mobilne uređaje preko JavaScript-a. Funkcionalnost se nalazi na svim stranicama.
- Kada se na određenoj rezoluciji pojavi hamburger klikom na isti se otvara navigacioni meni za mobilne uređaje dok ga drugi klik zatvara. Odrađeno pomoću JavaScript-a. Funkcionalnost se nalazi na svim stranicama.
- Efekat promene pozadinske boje i boje slova a taga pri ulasku odnosno izlasku iz prostora konkretnog a taga u navigacionom meniju. Odrađeno pomoću jQuery-ja . Funkcionalnost se nalazi na svim stranicama.
- Efekat promene pozadinske boje i boje slova a taga pri ulasku odnosno izlasku iz prostora konkretnog a taga u navigacionom meniju za mobilne uređaje. Odrađeno pomoću jQuery-ja. Funkcionalnost se nalazi na svim stranicama.
- Vrednost atributa src i alt u img tagu slajdera se menja na svakih 3 sekunde. Odrađeno pomoću JavaScript-a. Funkcionalnost se nalazi na svim stranicama. Odrađeno pomožu JavaScript-a.
- Dinamički ispisani važni brojevi i njihovi opisi. Funkcionalnost se nalazi na index.html stranici. Odrađeno pomoću JavaScript-a.
- U dinamički ispisanim važnim brojevima se pomoću brojača za svaki pojedinačni broj ispisuje njegova konkretna vrednost počev od određene inicijalne vrednosti (brojač za godinu kada je Frenk Sinatra osnovao kompaniju kreće od godine njegovog rođenja 1915. i ide do 1947. koja je godina osnivanja Sinatra Rekords-a. Isto tako od godine osnivanja Sinatra Recordsa kreću brojači koji se zaustavljaju na godinama kada je kompanija izdala prvi album na kaseti i CD-u

respektivno. Od 0 kreće brojač za brojanje Gremi nagrada i zaustavlja se na konkretnoj vrednosti). Odrađeno pomoću JavaScript-a. Funkcionalnost se nalazi na index.html stranici.

- Dinamički kreirana lista sa podacima o random vremenu. Odrađeno pomoću JavaScript-a.
Funkcionalnost se nalazi na svim stranicama.
- Dinamički kreirana lista sa linkovima ka društvenim mrežama, sitemap-u, modalu o autoru i dokumentaciji. Linkovima su dodeljene ikonice iz biblioteke Font Awesome. Odrađeno pomoću JavaScript-a. Funkcionalnost se nalazi na svim stranicama.
- Klikom na link sa ikonicom osobe pojavljuje se modal sa podacima i slikom autora sajta. Pojavljivanje i zatvaranje modala odrđeno pomoću FullMod jQuery plugin-a. Modal ima inicijalni dizajn koji je omogućio fajl fullmod.min.css.
- Dinamički kreirana lista sa kontakt podacima o Sinatra Records-u i godini izrade sajta. Funkcionalnost se nalazi na svakoj stranici. Odrađeno pomoću JavaScript-a.
- Dinamički kreirana lista sa linkovima koji vode do neminifikovanih fajlova. Odrađeno pomoću JavaScript-a. Funkcionalnost se nalazi na svim stranicama.
- Približavajući se izlasku iz bloka ceo sadržaj bloka bledi. Obrnuto približavajući se ponovnog ulaska u prethodni blok njegov sadržaj se polako pojavljuje da bi bio sasvim jasan potpunim ulaskom u blok. Urađeno pomoću jQuery-ja. Funkcionalnost se nalazi na svim blokovima osim header-a na svim stranicama osim na preposlednjim i poslednjim blokovima.
- Unutar blokova predviđenih da se u njima nađu podaci o albumima jednog žanra su dinamički ispisani blokovi za pojedinačne albume sa njihovim sadržajem - dinamičkom listom sa najosnovnijim podacima o konkretnom albumu i linkom koji vodi, kada se klikne na isti, do modala za detaljnije informacije o konkretnom albumu. Dinamičko ispisivanje odrđeno pomoću JavaScript-a. Funkcionalnosti se nalaze na stranici store.html.
- Iz neutvrđenog razloga animacija sa blokovima koji blede dok se prelazi preko njih ometa funkcionalnosti modala tako da je za očekivane rezultate (bez header-a koji se izvlači iznad modala i onemogućava njegovo zatvaranje klikom na X u gornjem desnom uglu ili prikazivanja delimično izbledeleg bloka preko modala) neophodno kliknuti na dugme za prikazivanje modala za konkretni proizvod pre nego što blok počne da bledi i pre nego što se u window-u bude video makar i deo sledećeg bloka. Funkcionalnost prikazivanja i zatvaranja modala za detaljnije informacije o konkretnom albumu je urađena uz pomoć FullMod plugin-a. Inicijalni prikaz modala omogućio je fajl fullmod.min.css.
- U svakom modalu za prikaz detalja albuma se nalazi ekspandirajuća lista sa detaljima o konkretnom albumu. Unutar liste se nalaze naslovi konkretnih detalja i ulaskom u prostor određenog naslova otvara se ugnezđena lista koja prikazuje detalje vezane za konkretni naslov. Izlaskom iz prostora ugnezđene liste u prazan prostor ili u prostor sledećeg naslova ona se zatvara. Urađeno pomoću jQuery-ja. Funkcionalnosti se nalaze na stranici store.html.
- Klikom na podrazumevan razlog za kontakt (Odaberite razlog u okviru kategorije) ukloniće se elementi specifični za druge razloge ako je prethodno kliknuto na neki od njih. Klikom na neki od oblika partnerstva u dropdown listi koja sadrži razloge za kontakt prikazuju se dropdown lista za

odabir trenutnog statusa potencijalnog partnera, input type date polje za odabir željenog datuma sastanka i input type time polje za odabir željenog vremena sastanka sa predstnikom Sinatra Records-a. Ukoliko se kao status potencijalnog partnera odabere diskografska kuća pojaviće se tekstualno polje za upis imena kompanije koju pojedinac predstavlja. Pri odabiru nezavisnog umetnika kao statusa ili podrazumevanog elementa u dropdown listi za status potencijalnog partnera, ukoliko je prethodno kliknuto na diskografsku kuću kao status, polje za ime kompanije koju pojedinac predstavlja će se ukloniti. Pri odabiru bilo kog konkretnog albuma kao razloga za kontakt ukloniće se elementi specifični za druge razloge ako je kliknuto na njih i pojaviće se dropdown lista za selekciju željenog formata albuma koji može biti vinil ili kompakt disk. Za određene albume ne postoji mogućnost selektovanja vinila ili kompakt diska kao formata pa će se u slučaju selekcije imena takvog albuma kao elementi liste za odabir željenog formata opet pojaviti vinil i kompakt disk ali će ovoga puta nedostupan format biti disable-ovan i neće ga biti moguće selektovati. Promeniće mu se boja teksta i dodaće mu se tekst u zagradi da format nije dostupan za konkretan album. Osim toga, klikom na bilo koje ime albuma prikazaće se u dva span taga troškovi dostave po američkim državama i po regionima širom sveta respektivno. Pored svega toga, klikom na bilo koje ime albuma prikazaće se još i tekstualno polje za unos adrese kupca. Klikom na žalbu kao razlog uklanjaju se elementi specifični za ostale razloge za kontakt ukoliko je prethodno kliknuto na njih i pojaviće se dropdown lista za odabir razloga za žalbu. Odrađeno pomoću JavaScript-a. Funkcionalnosti se nalaze na stranici contact.html.

- U slučaju da se klikne na taster tipa submit a neko od polja, za koje je u span tagu ispisano da je u svim ili u određenim slučajevima obavezno ili da se mora odabrati nešto, tekst iz span taga za konkretno polje se menja i korisniku se ispisuje da to polje ne sme ostaviti prazno ili da mora odabrati neku vrednost sa odgovarajućim primerom u slučaju da se radi o odabiru vrednosti. Tekst iz span taga poprima crvenu boju u tom slučaju. U slučaju da je određeno polje korektno popunjeno ili da je odabrana konkretna vrednost pri kliku na taster tipa submit će se ispisati poruka, u span tagu konkretnog polja, korisniku da je uspešno popunio polje i taj tekst će poprimiti zelenu boju. Polja za ime i prezime korisnika koriste isti regularni izraz čiji patern zahteva da prvo ide veliko slovo pa zatim malo ili veliko (zbog mogućnosti da se pojavi prezime ili ime McLintock) i to barem još jednom iza čega mora da sledi konstrukcija koja se sastoji iz razmaka pa velikog slova pa opet jednog illi više malih ili velikih slova. Ova konstrukcija može da se pojavljuje nula ili više puta. U skladu sa ovim paternom nije dozvoljen unos imena kraćeg od 2 slova (zbog mogućnosti da se pojavi ime ili prezime Al). Ukoliko je vrednost koju je uneo korisnik u poljima za ime i prezime ne zadovoljava patern, klikom na taster tipa submit ispisće se u odgovarajućim span tagovima crvenim slovima da korisnik nije dobro uneo vrednost i navešće se primer korektno unetog imena ili prezimena. Za validaciju tekstualnog polja za unos email adrese korisćen je regularni izraz sa paternom koji zahteva da email adresa počne malim slovom engleskog alfabetu ili brojem iza čega sledi minimalno 5 puta a maksimalno 29 puta konstrukcija sa opcionom tačkom (jer ne sme da bude prvi karakter email adrese, prvi do znaka @ ili da se nađu uzastopno u email adresi) i malim slovom engleskog alfabetu ili brojem iza čega mora da sledi znak @ i najmanje dva znaka koji mogu da budu znakovi engleskog alfabetu ili brojevi, iza čega mora makar jednom da sledi konstrukcija sa tačkom i makar 2 slova engleskog alfabetu ili broja. Ukoliko se email adresa ne ispuni u skladu sa paternom korisniku se, prilikom klika na

taster tipa submit, ispisuje u span tagu email polja poruka crvenim slovima o pogrešno unetoj email adresi i primeru za korektan unos. Unos u polje za odabir kompanije koju predstavlja korisnik je validirano regularnim izrazom čiji patern dozvoljava unos jednog ili više velikog slova ili broja, iza čega sledi konstrukcija sa opcionim razmakom i velikim, malim slovom ili brojem koja se mora pojaviti makar jednom da bi osigurala da ime kompanije bude duže od jednog karaktera (patern je definisan na ovaj način zbog mogućnosti da se kompanija zove 7Up). U slučaju unosa vrednosti koja ne odgovara paternu ispisće se poruka u odgovarajućem span tagu crvenim slovima o pogrešnom unosu i primeru za korektan unos. Odabir vrednosti u polju date je ograničen. Korisniku je dozvoljeno da selektuje samo datume od 01/01/2021 do 12/31/2021 jer je predviđeno da ne može da se zakazuje sastanak u tekućem mesecu i da prostor za zakazivanje mora biti manji od godinu dana tako da bi se od 1. januara ovo ograničenje promenilo na od 02/01/2021 do 01/31/2022. Ovo ograničenje polja tipa date je odrđeno u HTML-u ali je navedeno kako bi se znao razlog tog ograničenja. Polje tipa time nije ograničeno jer se pretpostavlja da se sastanak može zakazati i van radnog vremena. Polje za adresu se validira regularnim izrazom čiji patern nalaže da prvi karakter mora biti broj od 1-9 (jer ne postoji adresa sa brojem 0) iza čega sledi nula ili više brojeva od 0 do 9 iza čega može opcionalno da sledi konstrukcija /malo slovo ili broj namenjena za eventualnu specifikaciju stana iza koje mora makar tri puta da se pojavi konstrukcija sa razmakom, velikim pa proizvoljnim brojem velikih ili malih slova za minimalno specifikaciju imena ulice, grada i države. (npr. McKay Avenue Ottawa Canada). Ukoliko se uneti string u polju za adresu ne poklapa sa paternom korisniku se u odgovarajućem span tagu klikom na input type submit ispisuje obaveštenje crvenim slovima i primer za korektan upis. Validacija je odrđena pomoću JavaScript-a. Funkcionalnosti se nalaze na stranici contact.html.

Po učitavanju stranice se JavaScript-om ispisuju elementi navigacionog i mobilnog navigacionog menija. Pri pojavi hamburgera na određenoj rezoluciji, klikom na isti se JavaScript-om otvara mobilni navigacioni meni dok ga drugi klik zatvara. JavaScript-om se menja vrednost alt i src atributa img taga slajdera na svake 3 sekunde. Efekat menjanja boje slova a taga i pozadinske boje a taga na ulazak, odnosno izlazak mišem iz prostora konkretnog a taga u navigacionom meniju urađen je pomoću jQuery-ja. Dinamički se ispisuju važni brojevi i njihovi opisi nicijalizovani na nulu i potom se brojačima dolazi do odgovarajućih brojeva. Obe funkcionalnosti urađene pomoću JavaScript-a. Pomoću jQuery-ja prelaskom preko bloka njegov sadržaj polako bledi da bi potpunim ulaskom u sledeći blok sadržaj potpuno izbledeo. Animacija je primenjena na svim blokovima osim na hederu, preposlednjem i poslednjem bloku. Dinamički se ispisuju liste sa podacima o radnom vremenu, linkovima, kontakt podacima i linkovima do neminifikovanih fajlova pomoću JavaScript-a. Klik na link sa ikonicom osobe otvara modal za prikazivanje podataka i slike autora. Urađeno preko jQuery-ja i jQuery plugin-a FullMod.

With this deal, you can complete the process of making an album within our company or create a cooperation agreement for defined areas of cooperation on both sides. The name of this deal suggests that you, as our partner, are not limited in any way in terms of everything necessary for the commercial success of your work of art, but that you can take only what is of interest to you from everything offered. It can be just marketing operations and the use of record studios or just collaboration in the field of physical distribution and post-production of albums or anything you can imagine. And that is not all. Like all other types of cooperation this deal also can be concluded on a long-term basis.

Our support

If you are a promising artist our advise to you is to become our long-term partner. If an album is not recognized by critics or listeners which is reasonable to expect to happen once in a while in your career, it is important to have a our support. There are many performers who disappeared from the music scene after a couple of consecutive failures because record companies no longer wanted to take the risk of doing business with them. Our offer of a long-term contract to you is a confirmation of our trust in you and it gives you the opportunity to prove your quality and to rescue your career in case of failure. Also in the case of a distribution it is very important to you to have a reliable partner even after a certain failure.

Brief history

Sinatra Records was founded in 1947 by one of the most recognized singers of all time, Frank Sinatra, based on his previous success on the radio. Initially, Sinatra Records only produced Frank's albums, but in 1960 it began distributing his albums. In the mid-1960s, the company began producing and distributing albums and other artists of various genres. 1966 occupies an important place in the history of Sinatra Records, because then Frank's album *Strangers in the Night* was released as the company's first album on cassette tape. Sinatra Records entered the CD market in 1991 with the release of Robert Flack's album *Set the Night to Music*. After the death of Frank Sinatra in 1998, his son Frank Sinatra Junior became the owner and CEO of Sinatra Records. In 2000, Sinatra Records stopped making albums on cassette tape, and in 2010 it stopped selling albums of this format. In 2016, after the death of Frank Sinatra Junior, the grandson of the legendary Frank Sinatra, Michael Sinatra, took over the leadership of Sinatra Records.

Museum

The Sinatra Records Museum is located in our building at 2 Baker Street, Brooklyn, New York. By visiting our museum you will have the opportunity to see a fully functional recording studio where Frank Sinatra recorded songs for Columbia Records and then later for Sinatra Records until the 1966 and moving to a studio that still functions today which you also have the opportunity to see between the takes. In addition to the recording studio you will have the opportunity to see the awards that Sinatra Records has won over the years, among which the most prestigious Grammy awards stand out the most. Within our museum there is also an archive of sound recordings as well as an exhibition with Frank's personal belongings such as some of his hats, microphones that he used at performances, pictures from his life and much more. The entrance fee is \$ 20.00.

Mission and vision

The mission of Sinatra Records is to create high-quality music records which will be appreciated not only by today's critics opinion and sales but also by generations to come. In other words our main goal is to produce songs that shall not be part of any time periode in music history but to be among every periode to come like the Frank Sinatra's songs are. Music can be utilized for many purposes like relaxation, fun or expression of the most different kinds of feelings like thrill and melancholy or longing and belonging. But the very essence of Sinatra Records's mission is the substantial meaning of the music itself and that is to help bringing people together. Music has proved to be strong enough to tear the walls among people down and to bring them close no matter on race, nation or gender. We found our mission accomplished if any of songs we produced were part of people's lovely moments which they will not ever forget. Our vision is to become the US largest record company without music market would be almost impossible to imagine.

If you would like to focus the marketing of your album on the radio we can make a deal with the radio company on the making of a radio commercial for it, as well as on the frequency and timing of broadcasting on one or more radio stations. If an album is not recognized by critics or listeners which is reasonable to expect to happen once in a while in your career, it is important to have our support. There are many performers who disappeared from the music scene after a couple of consecutive failures because record companies no longer wanted to take the risk of doing business with them. Our offer of a long-term contract to you is a confirmation of our trust in you and it gives you the opportunity to prove your quality and to rescue your career in case of failure.         <p class="blueColor textAlignJustify lineMarginBottom">Sinatra Records was founded in 1947 by one of the most recognized singers of all time, Frank Sinatra, based on his previous success on the radio. Initially, Sinatra Records only produced Frank's albums, but in 1960 it began distributing his albums. In the mid-1960s, the company began producing and distributing albums and other artists of various genres. 1966 occupies an important place in the history of Sinatra Records, because then Frank's album Strangers in the Night was released as the company's first album on cassette tape. Sinatra Records entered the CD market in 1991 with the release of Robert Flack's album Set the Night to Music. After the death of Frank Sinatra in 1998, his son Frank Sinatra Junior became the owner and CEO of Sinatra Records. In 2000, Sinatra Records stopped making albums on cassette tape, and in 2010 it stopped selling albums of this format. In 2016, after the death of Frank Sinatra Junior, the grandson of the legendary Frank Sinatra, Michael Sinatra, took over the leadership of Sinatra Records.</p>

By visiting our museum you will have the opportunity to see a fully functional recording studio where Frank Sinatra recorded songs for Columbia Records and then later for Sinatra Records until the 1966 and moving to a studio that still functions today which you also have the opportunity to see between the takes. In addition to the recording studio you will have the opportunity to see the awards that Sinatra Records has won over the years, among which the most prestigious Grammy awards stand out the most. Within our museum there is also an archive of sound recordings as well as an exhibition with Frank's personal belongings such as some of his hats, microphones that he used at performances, pictures from his life and much more. produce songs that shall not be part of any time periode in music history but to
be among every periode to come like the Frank Sinatra's songs are. Music can be u

very essence of Sinatra Records's mission is the substantial meaning of the music
itself and that is to help bringing people together. Music has proved to be stro
